

IABSE Congress 2024

September 25, 26 and 27
San Jose, **Costa Rica**

“Beyond structural engineering in a changing world”

Preliminary Invitation
The “**Pura Vida**” country is waiting for you

Organizers

Partnership with

We welcome you!

The International Association for Bridge and Structural Engineering (IABSE) is delighted to be invited to San Jose, Costa Rica, for the IABSE Congress in September 2024 – the year that marks the Association's 95th anniversary. Since 1929 IABSE has successfully promoted the exchange of knowledge and has advanced the practice of structural engineering worldwide, in the service of the profession and society. Our members deal with all aspects of structural engineering – all types of structure, all construction materials, and all phases in the life of structures, from the early planning and design stages through to operation, maintenance and final decommissioning, demolition or re-purposing. In everything we do, we take technical, economic, environmental, aesthetic, and social aspects into consideration.

The theme of the IABSE Congress in San José is “Beyond structural engineering in a changing world”, and places several urgent issues high on the agenda, including decarbonization and climate change, deconstruction and the second use of structures. The construction industry is responsible for a significant amount of carbon emissions and we collectively have a great responsibility to develop solutions that have a positive effect on pressing challenges. The challenges are on a global scale and to make a real difference we need international collaboration. With more than 3000 members in 100 countries, the IABSE has an important role to play. During the conference, you will have the opportunity to connect with some of the leading experts in the field and recognized thought leaders. Join the conference to share your knowledge and make your voice heard.

I hope you will take some time during your visit to enjoy this special place and take some of the ‘pura vida’ spirit home with you. On behalf of the Association, I would like to thank the Costa Rican Group for organising the Congress in San Jose in 2024. I look forward to reconnecting with our members and to welcoming new participants. A special invitation goes to young engineers born in or after 1990 to sign up and enjoy the Young Engineers’ Programme, as well as the networking opportunities with experienced members of the profession. Please join us!

I hope you take some time during your visit to enjoy this special place and take with you part of the ‘pura vida’ spirit. On behalf of the Association, I want to thank the Costa Rican Group for organizing the Congress in San José in 2024. I look forward to reconnecting with our members and welcoming new participants. A special invitation is made to young engineers born in or after 1990 to enroll and enjoy the Young Engineers Programme, as well as networking opportunities with experienced members of the profession. Join us!

Tina Vejrum
IABSE President

Meet our team

Organizing Committee

On behalf of the Costa Rican National Group of the International Association for Bridge and Structural Engineering (IABSE), we are pleased to invite you to the IABSE 2024 Congress in San José, Costa Rica, from September 25th to 27th, 2024.

Explore the theme 'Beyond Structural Engineering in a Changing World' and join the global community to share knowledge and ideas. Enjoy conferences, debates, and networking opportunities in a vibrant environment.

Marija Trifunovic
Co-Chair of the Organizing Committee

Organizer

The International Association for Structural and Bridge Engineering – IABSE
Organization with a mission to promote the exchange of knowledge and advance the practice of structural engineering worldwide in the service of the profession and society.

Meet
me too!

We will be your hosts in Latin America, after more than 60 years since the last meeting in the region. This year, we celebrate the opportunity to highlight the advances and challenges of structural engineering in this dynamic region.

We look forward to welcoming you to this unique event where you can connect with colleagues and industry leaders while exploring the wonders of Costa Rica and Latin America.

Best regards,

Daniel Urena
Co-Chair of the Organizing Committee

Costa Rican Association of Structural and Seismic Engineering – ACIES
Organization with independent interest in the exercise of its functions and composed of professionals in the field of Structural and Seismic Engineering in Costa Rica.

Meet our team

Scientific Committee

On behalf of the Scientific Committee, we are pleased to invite members of the international structural engineering community to the IABSE 2024 Congress in San José, Costa Rica.

The IABSE Congress is a prominent international gathering that provides a platform for sharing knowledge, fostering collaboration, and discussing advancements in the field of structural engineering. With the theme 'Beyond Structural Engineering in a Changing World,' the Congress aims to explore the challenges and opportunities arising in the changing global landscape.

We will present a wide range of topics of great importance to the

structural engineering community. Experts and renowned professionals from around the world will present their cutting-edge research, innovative solutions, and best practices in these areas. The Congress will provide fertile ground for meaningful discussions, knowledge exchange, and networking opportunities that can shape the future of our profession.

We look forward to welcoming you to the IABSE 2024 Congress and the beautiful city of San José, Costa Rica.

Warm regards,

Carlos Méndez-Galindo
Co-Chair of the Scientific Committee

Matias Valenzuela
Co-Chair of the Scientific Committee

About the Scientific Committee

The Scientific Committee is elected by the IABSE Technical Committee responsible of maintaining the academic and scientific content of the event. They rigorously review the submitted abstracts and papers to ensure a high-quality technical programme, contribute to the content selection, programme development, and overall success of the conference.

All you need to know to attend

Costa Rica

Costa Rica occupies a privileged place in the heart of Central America, for its beaches bathed by the Caribbean Sea and the Pacific Ocean, separated by just three hours by car or 45 minutes by plane.

Format

IABSE Congress 2024 will feature a diverse program including keynotes, technical sessions, debates and networking opportunities. The event will provide a conducive environment for meaningful discussions, exchange of experiences and establishment of professional connections.

Objective

The objective of the IABSE Congress 2024 is to bring together bridge and structural engineering professionals, researchers, and practitioners from around the world to exchange knowledge, share experiences, and discuss the latest advancements in the field.

The IABSE Congress 2024, with the theme "Beyond Structural Engineering in a Changing World" will cover a wide range of topics related to bridge and structural engineering. The congress will explore emerging trends, technological advancements, and sustainable practices in the field.

Who should attend?

The Congress welcomes participants from various disciplines within the field of structural engineering, including but not limited to researchers, academics, practicing engineers, architects, contractors, and industry professionals. We encourage individuals who are passionate about advancing the field of structural engineering and shaping its future to attend this esteemed gathering.

Register now!

Registration fees

	Early bird Limited time	General	On site
IABSE members	USD 650 + 2% VAT	USD 750 + 2% VAT	USD 850 + 2% VAT
CFIA/ ACIES / CIC members	USD 475 + 2% VAT	USD 575 + 2% VAT	USD 675 + 2% VAT
Non-Members	USD 730 + 2% VAT	USD 830 + 2% VAT	USD 930 + 2% VAT
Non-members plus	USD 755 + 2% VAT	USD 855 + 2% VAT	USD 940 + 2% VAT
Young Engineers	USD 360 + 2% VAT	USD 360 + 2% VAT	USD 460 + 2% VAT

Check the information to find out which category to register in:

IABSE: Collective Members of IABSE are entitled to two registrations at the IABSE Member rate. Contact your Collective Member representative to obtain the discount code to use during the registration process. Other registrants from Collective Members must register at the Non-Member rate.

CFIA / ACIES / CIC: Federated College of Engineers and Architects of Costa Rica / Costa Rican Association of Structural and Seismic Engineering / College of Civil Engineers of Costa Rica.

Young engineers: All participants born in or after 1990 will benefit from a reduced registration fee and are offered free one year IABSE Membership.

Non-plus members: The Non-Member Plus fee is for Non-Members who would like to become an IABSE member, and this fee includes one year IABSE Membership, making it a very cost-effective option. For more information about IABSE membership please [click here](#)

Cancellation Policies

In the event that a participant is unable to attend the event due to circumstances beyond their control and cancels their registration beforehand, the cancellation will be processed, and the amount paid will be refunded as detailed below.

- Cancellation of registration must be communicated to the organizers via email at info@iabse2024.com. The participant should ensure receipt of an acknowledgment of receipt thereof, for their registration to be officially cancelled.
- The payment made will be refunded according to the following terms:
 1. 75% if the cancellation is received a maximum of 30 days before the start of the Congress
 2. 50% if the cancellation is received a maximum of 15 days before the start of the Congress
 3. No amount will be refunded for cancellations received after the dates indicated in the aforementioned points.
 4. Each participant who submits the registration form is duly accredited to the event and therefore assumes their commitment to payment for the same. You may transfer your registration to third parties by sending a request to the email info@iabse2024.com and including the same information required in the registration form.

Payment methods

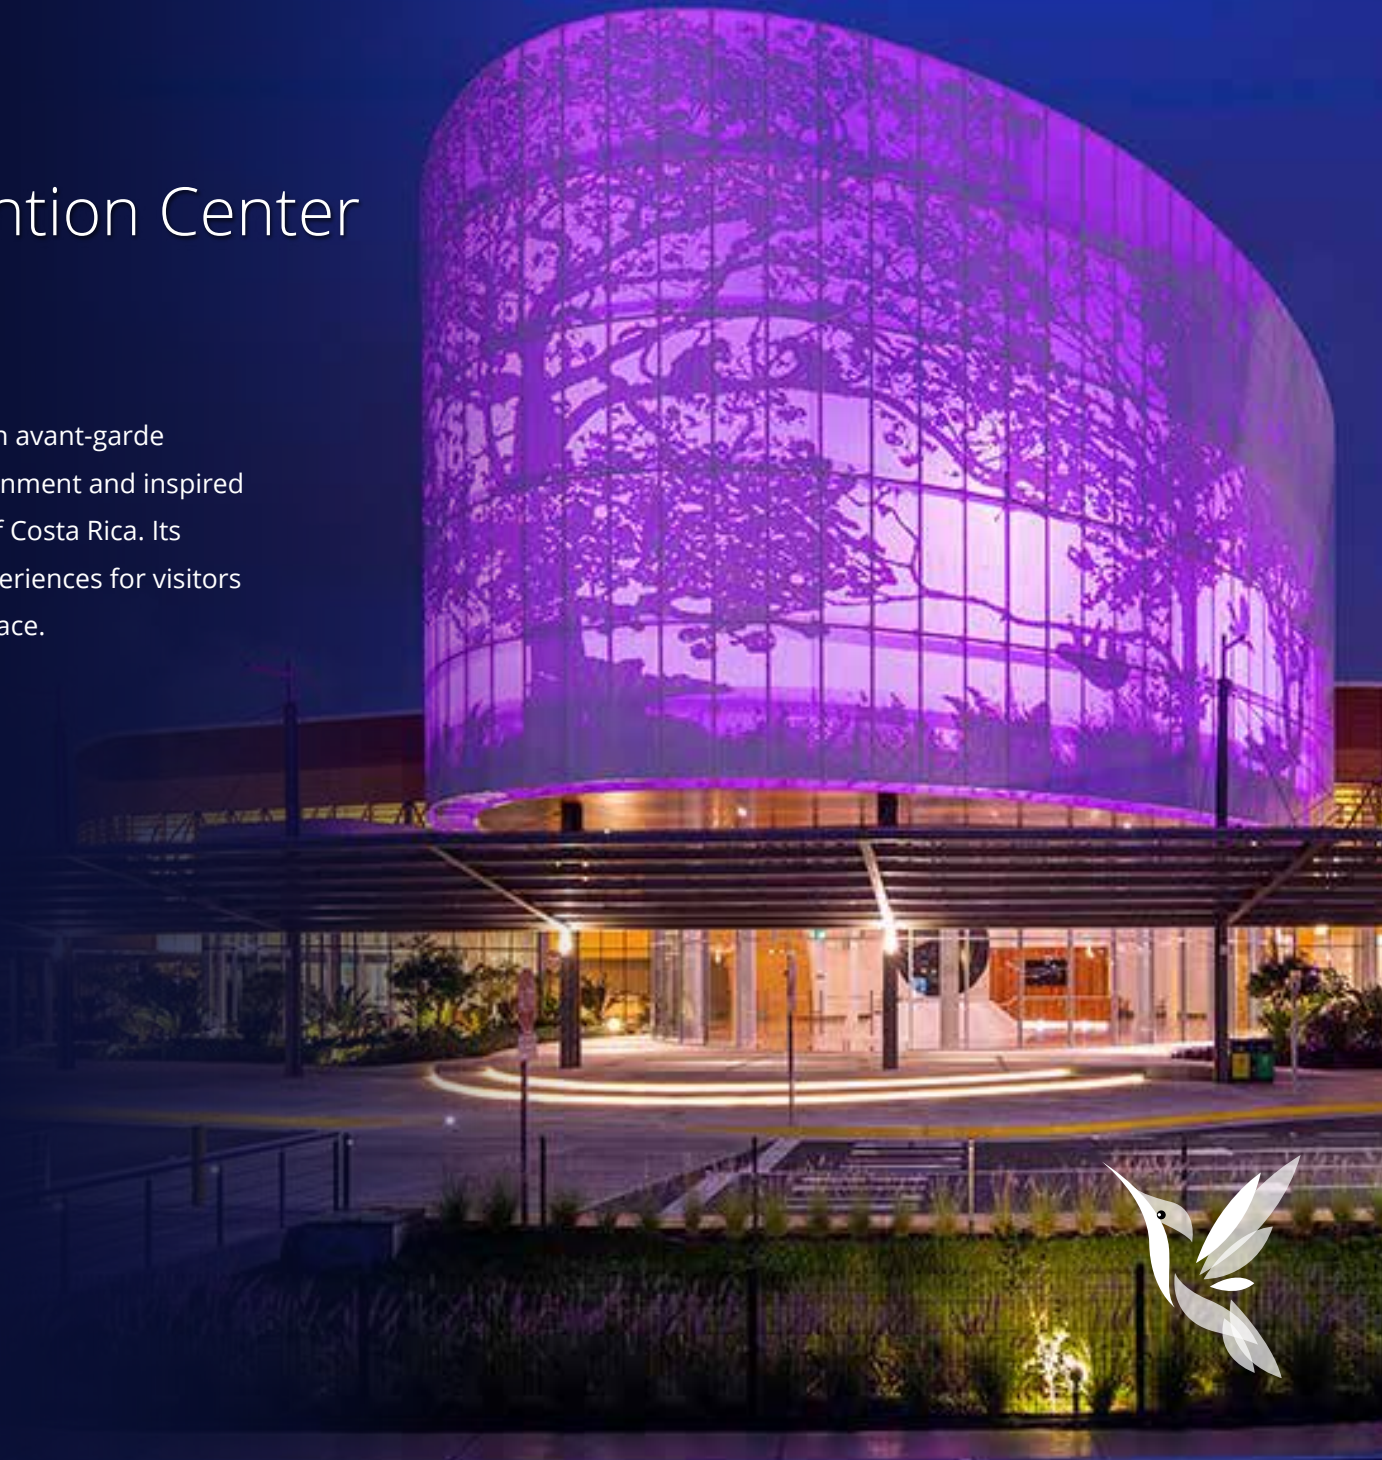

Payment can be made online by card or bank transfer.

Don't get lost! Area Map

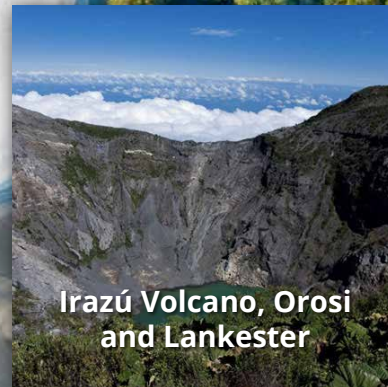

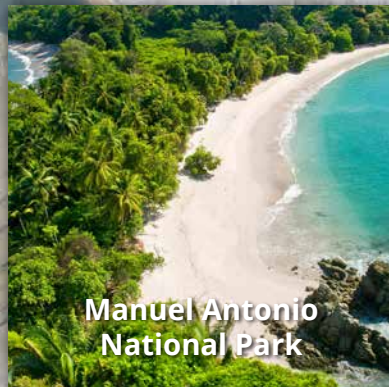

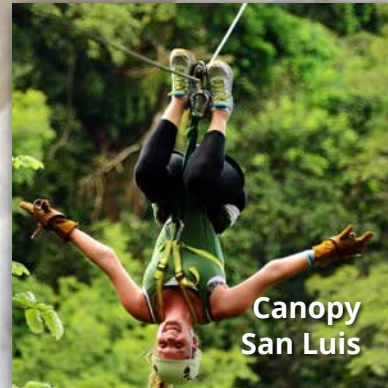

Public Transport

To get from the airport to your hotel, we highly recommend coordinating the transfer service directly with your hotel in advance. Most hotels in San José offer this service. If not, you can take an official airport taxi (recognizable by their orange color) or use Uber services.

For getting around the surrounding areas, we also recommend using Uber services, which are easily accessible. If you wish to explore the country, you can rent a vehicle or use the public bus service, which can be a cost-effective option for transportation. It's important to plan ahead and consider crowds at bus stations, as well as possible variations in schedules and services.

Just a few final details...

General information

About San Jose city

San Jose, Costa Rica's vibrant capital, blends urban energy with cultural richness. Explore historic sites, museums, and bustling markets. Immerse in the lively arts scene, savor local cuisine, and use it as a gateway to the country's diverse natural wonders.

Weather

During September, you can expect a climate with humid days and intermittent rain. The average temperature ranges between 19°C to 23°C. It is recommended to bring rain gear and light jackets. Despite the rain, you can still enjoy the rich culture and attractions of the city, but it is advisable to be prepared for changing weather conditions.

Electrical Appliances and network coverage

Costa Rica uses plug types A and B. Type A has two parallel flat pins, while type B has two parallel flat pins with a third grounding hole. The voltages are 120 V with a frequency of 60 Hz. In almost the entire country, you will find coverage for local cell phones

Travel documents

Costa Rica has very good international relations with a large number of countries; however, for some countries, a visa application process is required. If you possess a U.S. visa, you likely may not need to go through the visa application process. Nevertheless, please review the immigration requirements well in advance. **Learn about countries that require a visa by visiting here.**

Language

The official language in Costa Rica is Spanish. However, in many places, you will always find people who speak English! During the IABSE conference, the official language will be English with access to Spanish.

Invitation letters

If you require an invitation letter for your visa application or internal company process, we will be glad to send it to you. **Please contact us here**

Certificate of attendance

The participation certificates will be issued to each delegate once the Congress is concluded. These will be sent via email to the email address provided during registration
